

# Company Profile

PT Sanwell Austindo

*Innovations Provide  
Total Solution*

## Letter from our CEO

Sanwell Austindo is a culmination of business, detailed engineering, and social components, all infused to provide you real solutions. Our commitment, to serve and provide the best results in line with our motto of "Innovations Provide Total Solution".

Our purpose is to meet your plumbing and sanitary needs as good as it should be, with zero tolerance for mistake, in order to make sure the system functions well providing the results expected. Through a strong in-house engineering team, we resolve every challenge in this industry. We offer product innovation as a constant solution and keep developing new innovative products to compliment our range.

Each product of our company has a story. One of our partners is from the Polytechnic ATMI Surakarta, which allows us to manage joint productions of all our local brand, among others SMARTDRAIN.

We look forward to working with u soon.

Sincerely

**Elman Sunarlio**

# Company Overview

PT Sanwell Austindo, was incorporated in July 1996, and is engaged in the development, design, manufacture and supply of plumbing and sanitary products. The main office is located in Jakarta and having representative offices under PT Austindo Perdana, in Denpasar, Bali.

The company is committed in joint cooperation with the industrial polytechnic, to manage production and development of new products. The mutual joint cooperation has invented some formulas and continued to evolve with new brands such as Smartdrain, Austindo Trap, Grease Trap S1, Scrub Up Sink, Industrial Floor Drain S1 and the Public Washing Station (PUWAS).

To provide best solutions for our customers, we complete our product range with the best brands available in the world for every line. UPONOR and REHAU from Germany for plumbing solutions, DELABIE from France for public and hospital solutions, and ENWARE, from Australia for industrial solutions.

# Vision

To supply and deliver a quality plumbing and sanitary solutions, using most suited products for every building environment.

# Mission

1. Provide the best quality plumbing and sanitary products
2. Propose the best solutions for customers
3. Develop new products to complete the range and excell customers' expectations

# Our History

**1996**

Founded in Jakarta, Indonesia. A full service provider of plumbing and sanitary supply and quality manufacturer.

Partnering with Uponor from Germany for PEX Pipe.

**2004**

We designed and produced floor drain product, called "Smartdrain".

Partnered with ATMI, we developed a gully trap, Austindo Trap.

Partnered with Enware from Australia for industrial and safety products.

**2021-now**

Introduced to the market the Public Washing Station (PUWAS) and equipment.

Partnered with REHAU from Germany for PPR and Acoustic Pipe.

**2001**

Establishment of Bali branch office, PT Austindo Perdana.

Partnering with Delabie from France for public washroom products.

**2014**

We started the promotion of our Smartdrain products to overseas market, in Asia, USA, and Africa.

# Our Services

01.

## Bathroom Solutions

Austindo quality and performance with refined design. Austindo provides a smart choice for larger residential projects. From tapware and basins to WCs and urinals, you can choose Austindo with confidence.

## Healthcare Solutions

Our 19 years experience in designing and manufacturing purpose built hospital tapware is at the core of our healthcare range. We understand the critical importance of performance and reliability in these demanding applications. Our solutions range from surgeon scrub areas to public accessible toilets, as well as specialist mental health requirements.

02.

03.

## Plumbing & Indoor Climate Solutions

The polypropylene-based wastewater system from REHAU for all applications, in private homes, hotels, schools, hospitals, office blocks and commercial kitchens. Uponor AquaPEX Plumbing Systems, featuring the durable ProPEX expansion fitting system, is the first choice for installers, homebuilders and homeowners looking for a product that will provide consistent reliability and performance. Also, improves your plumbing system to remove bad odours in your bathroom by installing Austindo Trap.

## Industrial & Safety Solutions

Austindo has been protecting people, the workplace and the environment for many years. Our knowledge and expertise in the design and manufacture of safety systems, along with our exclusive partnerships with world leading international safety brands, means that we can provide a solution to ensure your facility provides the best possible protection.
